

# Arsenicum & Sulphur 30c

Angelica the vixen

If requested, the homeopathic Potion we have included (Arsenicum Alb. & Sulphur 30c) is a homeopathic potion. Since the potion is made up from natural ingredients there is no fear of overdosing and nothing to worry about if a non-infected fox or other animal or bird takes the potion. To avoid the local cat population stealing the food meant for the fox, we suggest that 4 drops can be put in a honey or jam sandwich; foxes love sweet things - cats don't! Since foxes are instinctively selfish with their food, if you have more than one fox visiting your property suffering from mange we recommend that the food is scattered widely rather than being placed in one spot. This will then ensure that more than one fox feeding at the same time can do so without having to be nose to nose with each other.

Four drops of the Homeopathic Potion (Arsenicum and Sulphur 30c) into the foxes food daily

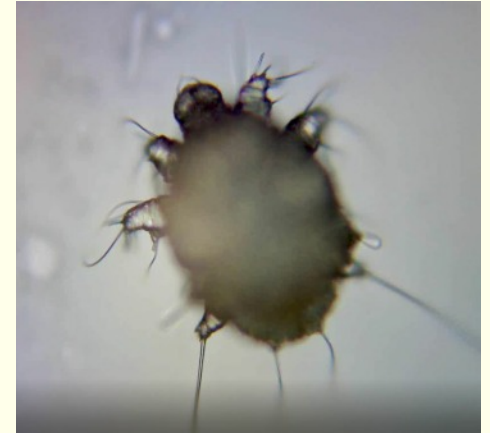

Since the potion you have been sent is a Homeopathic potion, legally we can not make any claims regarding this being a treatment and or can not make any claims of its **effectiveness**. **Furthermore we must state this is not medicinal as there is no scientific medical evidence of its effectiveness. Please also note this is not to be used as a preventative.**

Since we are a completely voluntary society it would be greatly appreciated if you are able to make a donation. In any event would you please, when the bottle is empty, return it to us for recycling. ....**Thank You.**

Apply for the Homeopathic Potion online <https://www.national-fox-welfare.com/>  
Please send any donation or returned empty bottles to: National Fox Welfare Society,

## Please Support Our Work for the Red Fox

The work undertaken by the National Fox Welfare Society is completely voluntary and sending out the Homeopathic Potion packs free of charge is one of the biggest strains on our finances.

In an average month we can send out anywhere between 800 - 1000 free Homeopathic Potion packs. Not including any other expenses like food, vet fees, etc in just postage alone sending out the free Potion packs, we can spend a mind-blowing £4,000 a month based on an average of 800 a month, and it is more often than not, a lot more.

This figure does not include the cost of the Homeopathic Potion envelope, and leaflet. More importantly, these potion packs will have gone to help, no less than 800 foxes each month.

Our priority by sending out these free potion packs is to ensure, even if people can't afford to donate

towards the pack the fox will get the potion regardless. To help our work you can send a one off donation made payable to NFWS. In Anticipation of your support... Thank you. Also the NFWS get 100% of the profits of any merchandise purchased from our sister site Personalised Little Gift Shop

The map above gives an indication as to where these Homeopathic Potion Packs have been sent across the country.
